<H5> Line Clearing </H5>

<H5> Over the past twenty years, Tom's Tree Service has had the opportunity to work with a variety of utility companies in Iowa and Missouri. We have the specialized equipment it requires to safely work around medium and high power voltage lines. We also have extensive experience in clearing land around utility poles and towers as well as other properties. </H5>

<H5> Each year we clear hundreds of miles around power lines for electric companies and co-ops. Regardless of the terrain we are able to clear away brush as well as trees which could fall on or damage the lines. We also completely remove any nearby or over-hanging branches from the lines. </H5>
