194.36.185.217	United States Hide IP Address Show Full IP Address Information Look (FAQ) What is IPV4? IPV4 stands for Internet Protocol version 4. It simply means the address. This address is usually shown as four numbers that are separated by dots but there is a new system called IPV6 that is gradually being used to replace IPV4. IPV6 is the latest internet addressing system that is designed to replace IPV4. It is separated by colons (Example - 2001:0db8:0000:0000:0000:0000:0000:0000)
