172.67.70.6	United States Hide IP AddressShow Full IP Address Information Lookup and AddressLookup Frequently Asked Questions (FAQ)What is IPV4?IPv4 stands for Internet Protocol version 4. It is the latest internet address system that allows devices to connect to the internet by using a unique address. This address is usually shown as a series of four numbers (e.g. 203.0.113.181). It has been around for a while but there is a new system called IPV6?IPv6 stands for Internet Protocol version 6. It is the latest internet address system. IPV6 addresses are made up of eight groups of four hexadecimal numbers separated by colons (E
