✔ **Doctype** Doctype is the first line of the HTML document. It tells the browser which version of HTML the document is written in.

Doctype is the first line of the HTML document. It tells the browser which version of HTML the document is written in. The most common doctype is HTML5. It is important to have a doctype to ensure that the browser renders the page correctly. Without a doctype, the browser will use a default doctype, which may not be the one you want. This can lead to rendering issues, especially with CSS and JavaScript. So, always include a doctype at the top of your HTML document.

● **W3C Validity** W3C Validity is a tool that checks if your HTML document is valid according to the W3C standards.

W3C - World Wide Web Consortium. It is an international community that develops and maintains standards for the World Wide Web. The W3C standards are used to ensure that web pages are consistent and interoperable. The W3C Validity tool is a free online service that checks if your HTML document is valid according to the W3C standards. It can check for errors in the HTML code, such as missing tags, incorrect attributes, and invalid characters. If there are errors, the tool will provide a list of errors and suggestions on how to fix them. This is a useful tool for web developers to ensure that their HTML documents are valid and compliant with the W3C standards.

✔ **Charset** Charset is the character set used in the document. It defines the mapping between the bytes in the document and the characters that they represent.

Charset is the character set used in the document. It defines the mapping between the bytes in the document and the characters that they represent. The most common charset is UTF-8. It is important to have a charset to ensure that the browser renders the page correctly. Without a charset, the browser will use a default charset, which may not be the one you want. This can lead to rendering issues, especially with special characters. So, always include a charset at the top of your HTML document.
