Insurance is a contract between an individual and an insurance company. The individual pays a premium to the insurance company in exchange for the company's promise to pay for certain expenses, such as medical bills, if the individual becomes ill or disabled. The insurance company uses the premiums it collects to invest in various assets, such as stocks and bonds, to generate a return on its investment. This return is used to pay for the expenses of the insured individuals. Insurance is an important part of financial planning and can help protect individuals and families from financial hardship.
