✓ **Flash** `<embed src="..." type="application/x-shockwave-flash" data-bbox="..." />`

Flash is a software platform for creating rich Internet applications. It is used to create interactive content that can be viewed on a web browser. Flash is a vector graphics format that can be used to create animations and interactive content. It is also used to create rich Internet applications (RIAs) that can be used to create complex web applications. Flash is a cross-platform technology that can be used to create content that can be viewed on a wide range of devices and operating systems. Flash is a powerful tool for creating rich Internet applications and content. It is a versatile technology that can be used to create a wide range of content and applications. Flash is a popular choice for creating rich Internet applications and content. It is a powerful tool for creating rich Internet applications and content. It is a versatile technology that can be used to create a wide range of content and applications. Flash is a popular choice for creating rich Internet applications and content.

✓ **Iframe** `<iframe src="..." />`

An iframe is a HTML element that allows you to embed another document inside the current document. It is used to embed content from another website or document. Iframes are used to embed content from other websites, such as images, videos, and other content. They are also used to embed content from other documents, such as PDFs and spreadsheets. Iframes are a useful tool for creating rich Internet applications and content. They allow you to embed content from other websites and documents, making it easy to create complex web applications and content. Iframes are a popular choice for creating rich Internet applications and content. They are a versatile technology that can be used to create a wide range of content and applications. Iframes are a powerful tool for creating rich Internet applications and content. They are a versatile technology that can be used to create a wide range of content and applications. Iframes are a popular choice for creating rich Internet applications and content.
