<H6> How we can help your business? </H6>

<H6> Why become our partner? </H6>

<H6> Why Sphinx Worldbiz is the best? </H6>

<H6> We are Software Development Company Providing Flexible Teams and Billings to let your focus on what matters more! </H6>

<H6> I have to say, the experience with Sphinx Worldbiz has been extraordinary. The team is highly experienced, they knew exactly what we wanted and always delivered on time. We asked for bespoke frontend, IT, and HRMS solutions from the Sphinx. Germany team and we have been surprised. One of the best teams I have personally worked with. I am all <H6> Mark Sanders </H6>

<H6> My experience representing an organisation and individually working with folks at Sphinx Worldbiz has been nothing quite fulfilling. The technical knowledge is amazing at all levels. Everyone knows what they are supposed to do. I am quite impressed with their application development expertise and their final product delivered to us has been functioning smoothly. We are never out of <H6> Edmund Lang </H6>

<H6> Working with Sphinx Worldbiz Limited has been the best decision for me personally. The teams, they are very sorted people. Had great insights about how to achieve the specifications we gave for our video analytics product, and they turned our idea into functional reality. Their tech support is surprisingly dedicated. If it is video technology-based services you are looking for, I recommend Sphinx. <H6> Dave Williams </H6>

<H6> Big thumbs up for Sphinx Worldbiz Limited for their support and glad to have our association with them. They developed on our already existing DBMS and what they did with it, the work makes a lot of sense now. Kudos for the way their teams work and consistently bring in their element of surprise. Pleasure doing business with you. </H6>

<H6> Leon Webber </H6>

<H6> Thanks to Sphinx Worldbiz Limited and their bespoke IoT solutions for us, we do need to keep checking back with them regarding our smart systems they helped us build. We have had a beneficial and mutually admirable association with Sphinx. Their resources, their team's technology knowhow is par excellence. Our customer relationship has increased manifold due to Sphinx's IoT run <H6> Zach Carlson </H6>

sphinxworldbiz.net robots.txt

✓ **Flash** `<embed src="..." type="application/x-shockwave-flash">`

Flash is a software platform that allows you to create rich web content that can be accessed by a wide range of devices. It is used to create animations, interactive content, and video. Flash is supported by most web browsers, but it is not supported by some mobile devices. To ensure your content is accessible to all users, you should use alternative methods for delivering content to mobile devices. For example, you can use HTML5 and CSS3 to create responsive content that works on all devices. You can also use a service like Cloudinary to deliver content to mobile devices. Finally, you can use a service like YouTube to deliver video content to mobile devices.

✓ **Iframe** `<iframe src="...">`

An iframe is a HTML element that allows you to embed content from another website into your own website. It is used to embed content like videos, images, and social media widgets. Iframes are supported by most web browsers, but they are not supported by some mobile devices. To ensure your content is accessible to all users, you should use alternative methods for delivering content to mobile devices. For example, you can use a service like YouTube to deliver video content to mobile devices. You can also use a service like Cloudinary to deliver content to mobile devices. Finally, you can use a service like Facebook to deliver social media content to mobile devices.

1. **SEO** - Search Engine Optimization. It's a process of making your website more visible to search engines like Google, Bing, and Yahoo.

2. **Content Marketing** - Creating and distributing valuable, relevant, and consistent content to attract and retain a clearly defined audience.

3. **Link Building** - The process of getting other websites to link back to your website, which helps improve your search engine ranking.

4. **Local SEO** - Optimizing your website to appear in local search results for businesses and services in your area.

5. **Mobile SEO** - Optimizing your website for mobile devices, as more people are using smartphones and tablets to browse the internet.
