 **Doctype** Doctype is the first line of HTML 5
Doctype Doctype is the first line of HTML 5

Doctype is the first line of HTML 5. It tells the browser which version of HTML the page is written in. The correct doctype for HTML5 is: `<!doctype html>`. It should be placed at the top of the page, before the `<html>` tag. This ensures that the browser renders the page in standards mode, which is the most compatible and secure mode.

 **W3C Validity** W3C Validity checker

W3C Validity checker is a tool that checks if your HTML code is valid according to the W3C standards. It can help you identify errors in your code that might prevent your website from displaying correctly in all browsers. You can use the W3C Validity checker by pasting your HTML code into the tool and clicking the "Check Code" button. The tool will then provide you with a list of errors and warnings, along with suggestions on how to fix them.

 **Meta tags** Meta tags are used to provide additional information about the page

Meta tags are used to provide additional information about the page, such as the page title, description, and keywords. They are placed in the `<head>` section of the HTML document. The most common meta tags are `<title>`, `<meta name="description">`, and `<meta name="keywords">`. These tags help search engines understand the content of the page and improve its visibility in search results.

1. **SEO** - Search Engine Optimization. It's a process of making your website more visible to search engines like Google, Bing, and Yahoo.

2. **Content Marketing** - Creating and distributing valuable, relevant, and consistent content to attract and retain a clearly defined audience.

3. **Link Building** - The process of getting other websites to link back to your website, which helps improve your search engine ranking.

4. **Local SEO** - Optimizing your website to appear in local search results for businesses and services in your area.

5. **Mobile SEO** - Optimizing your website for mobile devices, as more people are using smartphones and tablets to browse the internet.
