✔ **Doctype** Doctype is the first line of the HTML document. It tells the browser which version of HTML the document is written in.

Doctype is the first line of the HTML document. It tells the browser which version of HTML the document is written in. The most common doctype is HTML5. It is important to have the correct doctype to ensure that the browser renders the page correctly. If you are using an older version of HTML, you should use the appropriate doctype for that version. For example, if you are using HTML4, you should use the HTML4 doctype. If you are using HTML5, you should use the HTML5 doctype. The HTML5 doctype is the most common and is recommended for all new websites.

● **W3C Validity** W3C is the World Wide Web Consortium. It is the main international standards organization for the World Wide Web. It develops and maintains the standards for HTML, CSS, and other web technologies.

W3C is the World Wide Web Consortium. It is the main international standards organization for the World Wide Web. It develops and maintains the standards for HTML, CSS, and other web technologies. The W3C standards are the foundation of the web. They ensure that websites are accessible and consistent across different browsers and devices. If your website is not W3C valid, it may not render correctly in all browsers. It is important to check the W3C validity of your website to ensure that it is accessible and consistent.

✔ **Charset** Charset is the character set used in the document. It tells the browser how to interpret the characters in the document. The most common charset is UTF-8.

Charset is the character set used in the document. It tells the browser how to interpret the characters in the document. The most common charset is UTF-8. It is important to have the correct charset to ensure that the browser renders the page correctly. If you are using UTF-8, you should use the UTF-8 charset. If you are using a different charset, you should use the appropriate charset for that encoding. The UTF-8 charset is the most common and is recommended for all new websites.
